

Submitter: Dustin Reitzer
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Your destroying the middle class. You can't keep raising taxes. Oregon is already a nanny state. There's licenscing for everything and taxes on everything. Your making a once beautiful state a poverty stricken dump. You want to appeal to residences clean up the homeless/ druggie camps. That drives down "OUR" value in the communities we live in. Why would we want to continue to pay more when you already can't deliver on community safety? It's always the same cry " we need more money to keep you safe"... We aren't buying anymore. We've been the victims of homeless crime. It's almost impossible to get police to charge them. When they do the DA drops the charges. We want results based on what we already pay for taxes.
