Measure: SB1572

As a resident of Newberg, Oregon I am strongly in support of extending the commuter line to Salem. I believe this will highly benefit the quality of life of residents in the area, improve traffic conditions, and provide accessible transportation to individuals of all socio-economic statuses. Improving Oregon public transportation is imperative to investing in the economic vitality of the region. If this line were built I would be utilizing 5 days a week every week on my work commutes.
