Committee: House Committee On Education

Measure: HB4161

I strongly support this Bill. With schools becoming increasingly ideological, the need for alternatives is important for students and their families, to have the opportunity to get a substantive education that will help them in their adulthood. An education that is rigorous and based on merit not DEI. Let parents decide what is the best education for their children, not bureaucrats that create ideological content that costs millions of dollars and little benefit for the student. Thank you. I strongly support this bill
