

Submitter: Gage Cross
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Another tax? We do not need another tax in this state. We just had the largest kicker in the history of the state, why don't we use a little bit of that for "public safety." Another tax would harm everyone in Oregon, especially those with low incomes who can barely afford anything as it is. Extra taxes will cause them to lose their homes and only worsen the homelessness problem in our state. Landlords who have rentals would be forced to sell leaving the renter without a place. Use the money that we already have and cut things we don't really need.
