

Submitter: Paul Burkhart
On Behalf Of: Hjr201
Committee: House Committee On Rules
Measure: HJR201

As a business owner, one of the things that makes me proudest is watching my employees buy a house and settle down to raise a family. The impact of an additional tax on that property, when we are all so heavily taxed already, would be devastating for many young people trying to stay in Oregon. This measure seems totally contrary to the stated goal of our legislature in trying to create more affordable housing. Please don't move forward with this.
