

Submitter: Timothy Anderson

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

The fact that another tax needs to be added despite being one of the most taxed states and the value of action taken with that money is so low, I say not one more penny should be added to the taxes to the people until the budget is looked at and every penny is spent to provide the best value to the goals it has been lent to, for if the money cannot be spent responsibly for other goals then it cannot be spent well for this one.
