

Submitter: Scott Lute

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

The naked word “discrimination” , without any context, means that this bill, transfers all authority to the state to determine what it is or is not “discrimination”. In fact, it removes all local control from school districts and gives control to the state to determine which curriculum is used in local schools. This is an egregious abuse of power and will lead to unnecessary conflict between the state, school boards and parents.

Is not the place of the state legislature to decide what is taught in the schools.
