Measure: SB1576

I have resided in Welches with several hundred river frontage along the Salmon River for the last 50 years. I've always allowed the neighbor children to play along the shore of the river as my children played along the river on neighboring properties. I'm very concerned I will have to prohibit these children the pleasure of playing along the river's edge in fear I may be sued. This court case decision has to be fixed.

What a shame, Tom McCall would turn over in his grave the way Oregon is going.

Thank YOU
