There seems to be no limit to how much state of Oregon will take from its residents. WE ARE ALREADY PAYING SKY HIGH PROPERTY TAXES near 8K and it keeps going up every year! This level of taxation is THEFT. Do you think money just grows on trees?!! This is insane!!! We have inflation, job loss, house payments, insurance payments, nobody can afford to eat healthy, fix their home, pay childcare expenses, take their dog to the vet.... Lord help us if we ever developed cancer, or had a medical catastrophe. Healthcare copays and premiums have more than doubled just in the last few yrs, taxes have gone up, we have taxes and fees on utility bills along with ridiculous rates, gas tax, phone tax, insurance tax, service tax, city tax... and don't even get me started on income tax for crying out loud! I will never be able to retire at this rate. This is equal to modern day SLAVERY because it appears that you think you're entitled to all the fruits of our labor, as if it all belongs to YOU!! Well, it doesn't!! Now I see why people say Oregon is a communist state. In other words... I do NOT want to pay for another of your pet projects!!
