

Submitter: Sue May

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4075

This bill is a disguised state property tax, outside the limits for property taxes, in the name of public safety. State property tax may be imposed on an annual basis at a rate not to exceed \$0.25 per \$1,000 of the value of the property as assessed under law. The state's average home value is \$468,000. That's \$117 added property tax to 1,798,864 housing units! There are proposed exemptions; exemptions always create an unequal "fairness." Were the riots a setup for this new tax? Repeal Measure 110 if you want to improve public safety!
