

Submitter: Delbert Hollis
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

I am against this as I live in a rural area, we already have one of the highest tax rates in our area and thus would only make things worse. Oregon tax rates have been outta control for some time now and There should be no law allowed to pass or supercede the constitution and my family is among alot who have struggled because the taxes have gone up already by bounds and when we vote they listen to the majority in the bigger cities. There are alot of retired people and low income folks that live in the rural areas outside the big cities in oregon and this would cause alot of undue hardships on the people that have fought for this country and families who have had there spouses die defending it as they are also among the lower class this would affect. I strongly believe this bill shows how selfish congress can be as there are alot of people this would affect and I'm not for limitless spending as it would only jeopardize our beautiful state of oregon and all the people that live here. As a true Oregonian I feel upto this point I have Not been heard and if this passes I believe this bill will do more harm than good. When u see bill after bill passed and no improvement it starts to make the citizens wonder where is all the money go cause it's not going to improvements.
