

Submitter: Adam Rutledge

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

As an owner of numerous rental units, builder of residential structures and a property manager. This additional tax will only further hurt affordable housing in the state. How can a state have affordability be a priority while at the same time make owning real estate more expensive? We do not. Red any more taxation in this state, what we need is more responsible fiscal management.
