

Submitter: Donna Beverage  
On Behalf Of: Union County  
Committee: House Committee On Rules  
Measure: HJR201

Vote NO on HJR 201 Oregon already pays higher taxes than most states. There is not a one size fits all and the State should always have local input before changing a law or adding more taxes to the hard working tax -payers. Removing Constitutional limits on property taxes is NOT the Oregon way!! This change would put seniors and other limited income Oregonians at risk to lose their homes as property taxes move higher with no limits! HJR should be referred to the voters as you are working for the people that voted for you and this is our money that you are being trusted with, not yours!!!
