

Submitter: Kit Stavrum
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

What are citizens to think when they read this abomination of a bill, do you really think citizens want the government taxing us more than they already do, this is unconstitutional and you know it. We do not want any more taxes especially property taxes.

Taxation without citizen approval is theft.

Another tax will over burden the already struggling citizens who are having trouble paying for groceries and rent and gas and living paycheck to paycheck.

How about putting together a bill that will reduce taxes on citizens?

You are supposed to be about Equity and Inclusion, what part of taxing the citizens of OR do you feel includes the marginalized citizens who are already having a hard time making ends meet.

Its not the governments job to tax its citizens, its the governments job to protect us so why don't you start putting the citizens first.
