

Submitter: Jim Ullrich  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

You are proposing to tax people out of their homes. With all the taxes you heap on us every year. When is enough enough. You show a drastic case of lack of fiduciary responsibility. When you take and take and take with your taxes and fees and new permits and on and on and on. Soon you kill the golden goose because of your greed. You notice the negative growth in this state, that's on you. You want to take more of our hard earned money to supposedly fix a problem that you created. You want to amend the state constitution for Portland. For a problem they brought on themselves. With their Soros backed DA and Feckless mayor as well as their antifa run streets. Their 1.3 billion dollars spent on homeless industrial complex with an increase of 22%. Is there anyone with any ethics there?
