Measure: SB1583

There is no better advocate to children and their education than a parent and those that live in their communities, neighbors, and friends. The continual overreach of government in a child's education serves no purpose for a child but an agenda brought on by the government as indoctrination.

This bill does not allow a board or a person to choose or not choose materials that are used in a school when the choice is discrimination. This bill restricts local school boards from directing curriculum in schools. It is a direct attack to protect the gender ideology.

Oregon enrollment dropped 21,744 in 2020.... 7,905 in 2021... and another 632 in 2022-23. They can no longer blame COVID for the continued decline. It is sad that low-income and minorities are impacted with no choice, stuck in a declining system that no longer prioritizes reading, writing and math.

This bill furthers the intrusion of sexually explicit books into our schools and libraries. Children should not be exposed to books advocating sex of any kind and with content that's borderline encouraging pedophilia. Promoting immoral and illegal activities is raising up lawlessness and evil, and they wonder why behavior in schools have deteriorated.

This is the worst bill of the session we cannot let pass. Please say ABSOUTELY NO to this infringement on a parent's rights!
