

Submitter: Linda Frick
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

PLEASE do not approve this property tax measure! I am a 75 year old retiree, living on a fixed retirement income. I cannot afford to have my rent increased if this bill passes! There are so many like me in Oregon. Rents and home sales prices are already too high for people like me. I live in constant fear of being priced out of the rental I have lived in for almost 8 years. If my landlord ever decided to sell his property because of too high expenses or raised the rent too high, I would not even be able to find another rental because they are all priced too high.

Please do not this bill to pass!
