

Submitter: Barbara Conway  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

1. Why tax seniors to buy pizza, drugs, luxury goods for people who either have money or need to get a job?
2. Why do you want to continue to entice non tax paying and out of state people to come here to get "free stuff" that citizens here can't afford or don't want? Drugs and drug paraphenalia, really? Luxury baseball suites, really?
3. You are effectively adding to my mortgage payment or someone else's rent to subsidize someone else? Giving addicts cash? Do you think that will help anyone but drug dealers?
4. Why are you taking local control on property taxes away to allow Portland politicians to determine smaller urban or rural area costs? Stay within your budgets. We have to.
5. I vehemently oppose this bill. You are running taxpayers out of the state faster than taxpayers are moving in and replacing taxpayers with illegals, drug addicts, homeless, and anyone who will agree to vote your way.

These subsidies benefit small subsets who should work on fundraising instead of taxes.
