Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

I'm writing in support of Senate Bill 1548, a bill to make Pacific Standard Time permanent year-round. I've never been happy with Daylight Saving time. Shifting back and forth is maddening, but more to the point I think Noon should be when the Sun is highest in the sky, not an hour beforehand. I know Oregon tried to switch to permanent Daylight time a year or so ago, but I vastly prefer permanent Standard time. It's scientifically much more reasonable, and do-able without federal support.
