

Submitter: Hillary Kittleson

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB4112

Chair Marsh and honorable members of the Committee:

I am a long time Oregonian, retired finance director and grandmother. From all three perspectives, I urge you to support the Clean Technology Leadership bill (HB 4112), which will help Oregon to secure upwards of \$768 million in federal Inflation Reduction Act investments. Clean energy technologies like heat pumps, solar panels, and electric vehicles are in rapidly increasing demand. HB 4112 and the -3 amendment will support sustained local economic growth, address supply chain constraints, lower costs for Oregonians, and create much-needed family-wage jobs across the state. This is a good bill for Oregon for both economic and environmental reasons. Please vote YES!

Thank you,
