

Submitter: Russ Resident
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Please take accountability of your own city and the problems you created. We as Americans and Oregonians have suffered from fiscally irresponsible spending and have you allowed our nation to be invaded. Portland specifically allowed gross misconduct by mobs of aggressive “peaceful protesters” who injured officers and buildings, which is directly to the people and taxes to fix it. With inflation at an all time high because of printing money and raising minimum wage, people are already at their breaking point. Your property tax hike is a joke and should be considered a war against the people. We don’t want any more taxes. You figure out how to manage what you already take and that is too much as it is. Your city is broken by your policies as though you don’t want to fix it and you just want/need more money to line your pockets. This state always wants to side with the wrong side and send money everywhere but where it needs to go. We are sick of this trend. Please do better for our children. We want a clean Oregon and it used to be clean and the montra was to keep oregon green and clean. Now with your failed policies, Oregon is a shithole and getting worse every day. Get out of our money; we don’t want you making decisions that negatively impact how we are going to be able to live while you say you’ll fix problems...need more money, but the homelessness persists and the high prices continue. I need a new car but can’t afford one because of years of tax increases without pay increases to match. When does the taxing stop?????? How do you live with yourselves? Making a decision to tax us should be the right of our own county and municipality with support from the people, not a rushed hearing to allow you to take our money to use somewhere else, when we have problems here in Salem and surrounding areas. Our country is in the middle of a economic and human invasion crisis and you want to tax us more??? Wtf? You are the same people that would send billions to Ukraine and Israel and not take care of your own border. Stop stealing money from Americans who are trying to survive...we are sickened by this. Stop taking our money!!!!!! We earned it; it’s not yours!!!!!!!!!!!!!!
