Submitter: Susan Gumm

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I fully support this bill. All humans deserve to be fully represented in literature and media, history deserves to be reported and taught truthfully and fully. a small minority should not be able to determine what people read or learn. I am strongly opposed to all forms of censorship when it comes to our libraries, our curriculum in schools, and what teachers can teach.
