Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

I support having Pacific Standard Time as the official year around time for that portion of Oregon that is on Pacific Time. I also believe that portion of Oregon that is on Mountain time should remain on standard time year around.

Not changing time twice yearly has health and emotional advantages. Standard time best fits most people's biological clocks. School age children also are better served with later school schedules; thus, Standard Time is better for education.
