

Submitter: Susan Sheldon  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1583

I am opposed to SB 1583. I believe that not all books are acceptable for certain age groups. Those books and that information is readily available to parents that want their children to see it. I do not want progressive instructors having the sole decision on my child's information. I believe it is up to the parents and community to see the information first and make an informed decision.
