Measure: SB1548

Thank you so much for introducing SB1548, this common sense legislation to have standard time all 12 months of the year here in Oregon.

Changing the clocks every six months is very disorienting and having daylight savings time in December would result in 8:35AM sunrise. We tried daylight savings time for the whole year in the mid 70s and people did not like it

Sincerely,

Janet Dahlgren
