

Submitter: Angel Obrist

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I am opposed to Senate Bill 1583. Our school boards and parents have the right to choose what and what not to allow our children to be taught. This bill would potentially and intentionally allow curriculum into schools that should be discussed in family's homes, not in a public school setting, away from parents and guardians of students. Please do NOT pass this bill.

Thank you,

Angie Obrist
