On Behalf Of: Mr Oregon Opposes SB 1583
Committee: Senate Committee On Education
Measure: SB1583

I OPPOSE [SB 1583] WITH EXTREME PREJUDICE!

Parents should direct school districts on what books and courses their children will be taught.

Parents with resources will just continue to pay for private schools and or revert to Home schooling their children.

The children whose parents are too poor for private schools and are too illiterate themselves cannot Home school their children are severely disadvantaged.

Oregon Public Schools used to be the finest in the nation.

Now, Oregon schools are more inclined to indoctrinate kids to become; sodomites, change their biological sex, pornography, Critical Race Theory, the 1619 Project and Black Lives Matter political organizations.

The poor children suffer the most-will they learn math, reading and writing?

Mr. Oregon Concurr, "Save the children and take back our schools!"
