

Submitter: Douglas Helfrich

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I would be very careful about what choices are being made when it comes to children. The thing the state legislators have been doing for the past few years is unbelievable. They have not proven to me that they have the ability to make good choices when it comes to the children. For the children's sake and your responsibility to do Gods will, please do not vote for this!
