

Submitter: Think Le
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Oregonians do not need another tax to fund programs that offer little to no benefits to hardworking Oregonians. HJR 201 is full of loopholes and vaguely languages. What can be defined as "public safety"? Who can be exempt from this tax? The resolution would do nothing but impose financial strain and burdens on working Oregonians who are already struggling with raising inflation, high housing cost, and the never ending tax cycles from the Salem bureaucrats. How much more can you squeeze out of the working folks? This needs to end now.
