

Submitter: Lisa Maloney
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

Dear Committee Members,

As a former elected School School Board Director, I strongly oppose SB 1583. Local School Boards need to be accountable to the citizens and parents in each district and must be able to adopt the best curriculum for their districts. School Districts often take the recommendations of ODE however, they should NOT be required or mandated to accept/adopt or purchase any and/or all curriculum, books or teaching aids that a small group of individuals dictates to every school district in the state.

SB1583 would be another detriment to the students in Oregon and will further erode a quality education that districts already struggle with because of all the regulations and mandates coming from Legislatures.
