

Submitter: M S  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

As a middle-class taxpayer - I am sick of paying for the poor decisions of others with my tax dollars. I am against having the state tax my property. Does the local legislation live under a rock? There was an increase in electricity bill, garbage bill, groceries costs are out of control, medical premiums, insurance for vehicles and already increase in taxes so my mortgage went up. Stop adding taxes when you can't manage the money that is already available. Stop giving everything away to people who are capable to earn a living and choose not to. Stop punishing people with property just because they are responsible and have property. Is your goal to drive everyone to the poor house with additional taxes? I make less this year than last year based on the prices of everything. If everything wasn't so expensive you wouldn't need the tax dollars to support people - they could support themselves. You don't need another administration - add work to your existing committees. You say this is for public safety and yet you don't let the police do their job. Why don't you make a specific plan and let the people vote instead of letting a group have authority to impose taxes. I oppose this bill.
