I oppose this bill 100% and it angers me that it is being represented in such a deceitful manner.

Wouldn't it be wonderful if the state could have unlimited amounts we pay for property tax! Why is that fair? The housing and homeless crisis is not our fault. This is something that has been allowed and welcomed by this blue state and now you're trying to slip this by all of us voters by not even allowing us to have a voice and terming it a public safety issue. What those homeless people need are treatment centers. They don't want a place to live and I don't think providing them with a structure is anything they would even appreciate. Use money for treatment centers so they can get off the dope. Close the southern border. I think treatment centers would be less costly than new homes. This whole thing has gotten out of control.
