

Submitter: Terence Healy

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

I grew up in Arizona where we observed standard time all year, and I think I turned out ok— just ask my mother-in-law! — although my wife complains that I turn into a pumpkin every spring forward and fall back time switch

Please please pass this bill— it'll help bring medical costs lower, folks will have less stress, and my wife will be happier

regards
terence
