Committee: House Committee On Rules

Measure: HJR201

This resolution is a catastrophe. Oregonians are already on the hook for a ridiculous amount of taxes. Within the top 10 highest taxed states in our nation. The only safety concern we have is the fact the current majority party can't get their act together, can't balance a financial sheet to a grade level above an 8th grader and seem to think we need to bring in undocumented individuals at a higher rate than our current stray cat epidemic. The majority party has created the homelessness issue over the past 30 years through their failures. Fix it by removing Democrats from power.
