Committee: House Committee On Rules
Measure: HJR201

No no and NO!

My mother whom is currently is in a reverse mortgage on social security can barely afford to pay property taxes as it is.

Many of the aging Oregonians like my mother; on fixed incomes will be forced out of the family homes. This upheaval is not needed. The chaos it will put on the state who will now have to place more seniors into the already unstable and grossly understaffed care homes and facilities across the state.

Other than the elderly it's the low income families that will hurt the most. The households living one paycheck away from foreclosure.

Don't make this already very difficult life harder. There are better ways to earn this surplus money.

I encourage you to think of your mom, your friends mom, the elderly neighbor, the single mom raising kids in a house all of their own....and find another way.
