

Submitter: Shawn Mork
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Please consider using/obligating/redistributing the taxes already in place before increasing taxes and changing how/where/who asses taxes. I've been working for three years to apply and qualify for farm use deferred property taxes. Please do not disrupt this. Please consider if you increase one tax you should lower another. Not just continue to spend more.
