

Submitter: Anna Martushev
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Yet another tax in this state is going to break the back of its residents!! Most areas already paying such high local property and now a proposed state tax? With record breaking kicker, new cat tax and so many other taxes like statewide transit and paid family leave tax, what is another tax like this needed for? There is a budget surplus, again biggest kicker in Oregon's history, so why does the state keep taking more and more from its residents? Let the people who will be affected by this tax have a voice and choice. Put it on the ballot. No taxation by committee, only by the choice of the people it affects.
