

Submitter: Dimtiri Sanarov

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Ax this Tax! No on this measure considering state has mor money then it knows what to do with record breaking kicker. Local property taxes are too high already but at least serve the people who are affected by it. Portland and Eugene do not reflect the rest of the state and if those areas needs funds for problems created by local policies, tax those residents not everyone across the board. Once more, I oppose this tax, ax it! Let the people have a say and we say no!
