

Submitter: Holly Hanes

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

The state continues to intervene in issues that require local decision making, and SB 1583 is one of those issues. You have decided that if our local community is opposed to this, we are discriminatory. That is not factual. The state seems bent on forcing districts to adopt radical curriculum, concepts and ideas that we simply do not agree with. This bill needs to die. Thank you.
