Committee: House Committee On Rules
Measure: HJR201

Yet another burdensome tax in this state is poised to further strain the residents' finances! Many areas are already grappling with exorbitant local property taxes, and now a proposed state tax looms on the horizon? With a record-breaking kicker, a new cat tax, and numerous other taxes such as statewide transit and paid family leave, why is there a need for yet another tax like this? Despite a budget surplus, the state continues to extract more and more from its residents. It's time to give a voice and choice to the people who will bear the brunt of this tax increase. Let's put it on the ballot. No taxation should be imposed by a committee; it should be determined solely by the choice of the people it impacts.
