

Submitter: Vaselisa Avgi
On Behalf Of: Resident
Committee: House Committee On Rules
Measure: HJR201

Please vote no on HJR 201. Additional tax for each household will debilitate many families. We are currently trying to pass a bond for our school district to make critical updates and prevent the school from closing down. If the bond passes it'll bump up the annual tax for families here around \$600. That's a lot for many of us already. Communities and nations are strong when they can take care of themselves. More and more taxes makes it harder to stand strong on your own. Figure out another way to cover costs you're trying to cover with our money. Thank you.
