Committee: Senate Committee On Health Care
Measure: SB1565

Thank you for your consideration for SB 1565. I urge you to pass legislation to help the high needs children of Oregon get access to the care they need. Parents are overworked and can't find reliable care for their vulnerable children. Please consider all options to expand available support to these families, particularly by allowing parents to use the deficit of hours as paid caregivers when reliable help is not available. Other states such as Arizona, Ohio, and Colorado are seeing the fiscal neutrality of allowing parents to be paid caregivers when needed. Thank you for supporting these children and their families!
