To be able to keep the rental rates low for people with limited resources keeping the tax rate reasonable is essential. Some where along the line responsible common sense has got to come in to play. Limit spending. I have a 3 bedroom 2 bathroom rental that is rented for under\$1800.00 after taxes insurance and monthly bills and repairs. I'm not seeing much profile. BUT 5 young people in their 20's are getting a chance to have a start!!!! Think about long term consequences
