

Submitter: Alwyn Durham

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

I strongly support doing away with DST. It's all but impossible for me to sleep during the summer due to the amount of light in the sky late at night. Not to mention the hassle factor and health impacts of disrupting everybody's circadian rhythms. This is long overdue and I can only hope it passes and that other Pacific states follow suit. Thank you for reintroducing this.
