Measure: HJR201

I am writing to say that I am against HJR 201.

There should be NO Statewide Property Tax or Statewide control of such. This proposed new tax method, HJR 201, could easily disenfranchise current and future property tax paying property owners across this state. Property taxes should be evaluated at county level where it can be fair and accurate based upon that county's monetary usage/needs for maintenance and safety, the property and land values for such specific locations, and the economy in that location. Each county is widely different and should be evaluated and taxed as such.
