

Submitter: MARIA Davila Bores
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1576

Dear Chair Prozanski, Vice-Chair Thatcher, and members of the committee:

My name is Maria Davila and I am writing in Support for -3 Recreational Immunity Fix Amendment to SB 1576. I am an avid trails user. I use the trails to commute to work, to go to the grocery store, to go to the park, to visit friends, to walk with my family and friends. Trails connect me to nature, people and things I love to do. Trails either improved or unimproved are one of the few activities that are very accessible to different communities/cultures and financial possibilities.

I think it is unfortunate that this amazing recreational opportunity is being compromised and could leave a lot of people without an opportunity to see amazing things, share unvaluable time with people, breath and find piece during a walk, enjoy nature, exercise or have a pleasant commute.

Please pass SB 1576-3 to restore recreational immunity for public and private landowners of improved and unimproved trails.

Thank you for your leadership,

Regards,
Maria Davila
Portland Metro Area trails user.
