

Submitter: Petra Nobilis

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Representation, voices to first hand accounts and diversity are crucial for individual and collective development. Too often specific groups, voices and people are targeted for silencing inside book bans and I do not support it. As a mother when I enter a library, it is the place I go to give my child insight, exposure to varieties and realities of life. I do not want this view diminished or selected for me by others. Please ban book bans.
