

Submitter: Elizabeth Powers

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

This measure not just about more taxes, which Oregon already basically one of the, if not the highest taxed state per capita. Having to declare all your personal property is an invasion of privacy, therefore categorically, unarguably UNCONSTITUTIONAL. I do not want this new agency to know about everything I own— Electronics, firearms, jewelry, precious metals, art works, all your investments, livestock, tools and machinery, trailers, campers and RVs that you registered out of state ... everything. Who came up w this, what were they thinking?? More to the point, what do they stand to gain??
