

Submitter: John Dublin
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

This is a terrible idea. The law of unintended consequences is at work here. The county already has added extra property tax for public safety. That, with other voted taxes has increased the tax on my house to the point of exceeding my modest income. HJR201 would force me to leave my small house and become homeless. There is already a homeless crisis in Oregon which will be made worse by HJR201. Please consider the unintended consequences and do not send us to live in a tent somewhere.
