

Submitter: Gwen Sparhawk
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583
2/13/2024

To the legislatures of the State of Oregon;

I would like to state opposition to both changing the control from counties to state of property tax revenue. This is an attempt to consolidate control revenues into the densely populated portions of the state. This creates an imbalance in the use of property tax revenue into the areas of the state who already have extremely high quantities of real estate and tax revenue. This imbalance will pull the money into programs that are not equitable for the rural populations. Furthermore, the hyper over inflated pricing on real estate in Oregon is creating unrealistic and non sustainable tax burden on the working class and senior property owners. NO to this poorly thought out bill. Thank you.
